

OPTION 1
" 5 ACRE WOODS "
by PARK + ASSOCIATES

A Whole-In-One Experience

The 5 Acre Woods Clubhouse, as the epicentre of SICCC, is conceived as a series of contemporary cabins in the woods, blending harmoniously with the verdant lushness of the immediate natural surroundings.

The strategic positioning of modern cabins synergises beautifully to form a unified community at its core, giving rise to a whole that is exceptionally greater than the sum of its parts.

The façade, a striking yet inviting form that arises from a clever interplay of the cabins' silhouettes, is peppered with the softness of natural greens in the day and illuminated with the splendour of lush glow at night.

Main Lobby

Continuing the concept of 5 Acre Woods, the swimming pools optimise on two contrasting elements, nature and man-made - an urban respite is created amidst tranquillity and nature. The large open promenades as one journeys through the cabin blocks are interspersed with calming waterscapes. Entering the pool is to feel at one with nature, swimming amidst the greenery with an infinity edge overlooking mature trees. A mid-swim drink and snack by the pool is always within reach with a beverage bar by the pool decks.

Atrium

The bar for fostering a shared sense of community and social engagement at SICC is raised to new heights with welcoming alcoves set against the smooth backdrop of nature, to a spacious all-day dining as a casual meal or even for special occasions. A relaxing setting is created for alfresco dining, perfect for that post-game refreshment.

Golfers' Terrace

Within each cabin block, sight lines of nature and green are incorporated, wherever possible, for additional visual and experiential impact. A day in the extensive gym, sports facility, or an evening night cap in one of the welcoming restaurants or cosy bars will never quite be the same again.

PARK+ASSOCIATES

Since it was established in 1999, Park + Associates has grown to be a studio made up of dedicated like-minded individuals that strive towards shared virtues both conceptual and aesthetic. This rings true across all levels of experiences within the office. The determination for us to achieve is strong, and as a result produce an environment that is intense yet vibrant and conducive for enhancing design discourse.

We recognise the importance of people and the human experience in architecture. We understand the importance of architecture that has good bones. In every piece of design that we create, no matter the scale, we seek to create objects and spaces that resonate with the individual. Each project is customised and crafted with rigour through a painstaking process, building upon the clients' expectations and challenging the studio's body of work, whilst respectfully responding to the site context.

As such, we find ourselves in very personal relationships with our clients, builders, and projects, ensuring absolute care and thought into every line that we put onto paper and its translation into built form. At the end of each project that undergoes such scrutiny is a sense of reward and satisfaction that is unparalleled, filtering through all that were involved.
